1.	Roeblin Lake (2036) near Fuerstenberg was occupied to capacity. Heavy vehicular traffic which included many sedans, and numerous officers on foot were observed. Units of about platoon strength repeatedly received training in firing. On 5 May, 350 soldiers and 150 uniformed women marched to the monument on Bahnhof Strasse	25 25 X 1
1.	Roeblin Lake (2036) near Fuerstenberg was occupied to capacity. Heavy vehicular traffic which included many sedans, and numerous officers on foot were observed. Units of about platoon strength repeatedly received training in firing. On 5 May, 350 soldiers and 150 uniformed women marched to the monument on Bahnhof Strasse for a short ceremony. In early May, a madar set, presumably of Fishnet type, was put up in the installation. Four 85-mm AA guns and a fire control director were seen in an emplacement south of the restricted area north of Petscher Weg. A second emplacement was located west of Fuerstenberg southwest of Steinfoerde. The gun crews were relieved every 4 weeks. Beginning in early July, field fortifications had been	25X1 25

		,	
		╛,	٠,
	on 10 August, intensive training was observed in the area of the AAA unit in the Flugplatz Kaserne in Schoenwalde. Soldiers observed wore		2
r	red-bordered black epaulets with artillery insignia. Soldiers received		
	Instruction on 2 x 85-mm AA guns. Two Whiff-type and Rus-2 type radar sets were also seen there. The three AAA emplacements were occupied as		
ŗ	previously by 3 x 85-mm guns each. Approximately 120 soldiers carrying	•	
A	small arms marched toward Boetzow. Colonel Khruch and his deputy Alykhin again audited bills of the AAA emplacement Meissnershof and		
ľ	units at Steinfoerde near Fuerstenberg. Intensive training was also observed in the area of the rocket launcher unit. Soldiers seen wore		
r	red-bordered black epaulets with artillery insignia. Four M-31 rocket		
1	aunchers were located south of the athletic field. 4		
		·	2
Ī	Comment. Prior to late August, the Hq Second Gds Mech Army is believed to have been stationed in the restricted area. The		
ĺ	field fortifications southeast of the installation are presumably to	¬	
	serve as AAA emplacements. This division		25 25
	Turnishes the AAA protection for the headquarters which includes the amplacements southwest of Steinfoerde. Other observations indicated		_
	that the relief units came from Schoenwalde, the division post.	•	
_	Comment. The %h Sig Regt of the Second Gds Mech Army has		2
	so far been located in the outer installations of the Ravensbruck	,	
_	concentration camp.		2
1	The assumed employment in the army signal communication traffic accounts for the Lington training in the installation.		2
•	(a _i) 14 ,		
_	tne 9th Sig Regt of the Second Gas Mech Army in		4
E	Tuerstenberg until 30 June 1954.	25X1	1
	Comment. The varying occupation strength is believed to		2
*	nave resulted from the continuous firing practices at Wustrow of elements of the 31st AAA Div and the rotation to places out-
